SKILLS

Languages

- Java
- C++

Database

- SQL
- PostgreSQL

Technology

- HTML
- CSS, Tailwindcss
- JavaScript
- Git, GitHub

Stack

- MongoDB
- Express Js
- React Js
- Node Js

EXPERIENCE

Summer Intern | Exito Systems Private Limited

July – Aug 2023

- Android Application Development: Developed and designed android apps using Java and android SDK. Room database for storing data in local device storage. Creating interfaces for performing CRUD tasks.
- Different Layouts Design: Using Constraint layout majorly, linear layout, and grid layout. Floating buttons, Handling Images, and Input fields.
- Debugging: Gained hands-on experience in debugging, identifying, and resolving issues in code.

Asp.net Intern | Techno Intellect Minds LLP

Feb – May 2024

- Microsoft SQL Server: Creating database schemas, performing complex queries using functions and stored procedures. Handling (CRUD operations) different formats of input in database like text, numbers, guid, images, and pdfs.
- ASP.NET: Developed and maintained web application using ASP.NET framework. Database integration using connection string, debugging and troubleshooting.
- MVC: Model View Controller methodology, project file structure, configurations, and code quality.
- Ajax-JQuery: Optimizing frontend performance through efficient ajax-jquery techniques by performing asynchronous tasks.

ACADEMIC PROJECTS

Tasker | Android App

A To-Do list Android application. This app allows user to add tasks synchronously with date/task number. User has full control over the data and can add, edit, or delete a task individually or in group.

SkyView

A weather forecast web application for user across any part of the world. Utilized various concepts of JavaScript like hoisting, API fetching, session storage, etc. with Tailwind CSS for the styles. Displaying weather forecast using search option and also current location using IP address. Used WeatherAPI for geolocation services. [GitHub Link](#) for the project.

EDUCATION

- B.E in Computer Engineering | SAL COLLEGE OF ENGINEERING
Gujarat Technological University (GTU) CGPA: 6.85
June 2024
- Relevant Coursework
 - Data Structures
 - Database Management
 - OOPS Concept
 - Algorithms Analysis
 - Computer Networks
 - SDLC
- XII (ISE) | Seventh-Day Adventist Higher Secondary School 63.2% | 2020

ACHIEVEMENTS

- Certificate of Completion from Apna College – DSA with JAVA
- Certificate of Training from Internshala – Full Stack Development
